UNIT SPECIFICATION

Unit K302 - The Congenitally Deafblind Individual

(QCF Unit Number: H/601/8729)

This unit (together with Unit K301 – Understanding Congenital Deafblindness) provides learners with knowledge and understanding in relation to communication with congenitally deafblind people (i.e. those born with dual sensory impairments) who do not use either English or British Sign Language (BSL) as a formal language.

This unit is not intended to address the communication needs of those congenitally deafblind people who are able to acquire formal language through spoken language, BSL or the use of English (e.g. via text or deafblind manual alphabet).

Unit K302 looks at communication with the congenitally deafblind individual, and the opportunities and challenges this presents.

(Unit K301 covers the causes of congenital deafblindness, and factors influencing the congenitally deafblind person's social development.)
